

# Mission News

Several years ago we walked into a little store in Reynosa to buy some water and snacks for a youth group. We ran into Alex and his wife Isabel. She was pregnant with their second child. She had already miscarried three times, and was having problems with this pregnancy. We shared Christ with them and challenged them to follow Jesus. They became Christians that day. We prayed for her pregnancy and continued to visit them. Their second son was born full term, and they now also have a little daughter.

One day when we visited, Alex had become paralyzed. He could not walk and had very limited use of his arms. The doctors in Reynosa diagnosed him with Guillain-Barre Syndrome. As new Christians they were very discouraged. Connie and I prayed for him and encouraged them to keep their trust in Jesus. The next morning Alex woke up completely healed and has had no trouble since.

I visited with Alex and his family last week. He is now preaching in the local church and has led many men to Christ in his little store. Thanks to all of you who help us, there are many new saints in Reynosa. God is awesome!

## Praise & Prayer

Connie has just finished her year of LVN school. The sacrifice was great, but it will be well worth it. She will be an even greater asset to the mission through providing much needed income and healthcare to the poor on the field. Beside great grades, Connie received an award for Clinical Excellence.

Pray for us as we travel into Mexico again. The harvest is still ripe, and the enemy is mad. Pray for us that we will use Godly wisdom concerning security and locations to minister in.

Pray for God's provision. The last year has really tried our faith. Health issues and finances have driven us to our knees. It has been a real discouraging time, but we know God has a perfect plan. Our hearts remain tender towards the poor and the suffering who need Jesus.

## THE MESCALERO APACHE TRIBE

Please continue to pray with us concerning our developing relationship with the Mescalero Apache's. There is a great need there. The bondages of alcohol, drugs, and the shunning of Christians, present a huge challenge to new Christians. We see this new field as a great place for missions groups who do not feel comfortable going to Mexico. Pray about how you can be a part of winning the lost on the reservation.
